

## State Insurance Regulatory COVID-19 Updates

\* In recent weeks, state insurance regulators have been issuing emergency regulations, guidance documents, and press releases to assist regulated entities regarding the provision of insurance-related services during the novel coronavirus (COVID-19) outbreak. **The recent updates are denoted below in red.**

\* Most notably, a brief overview chart is provided below with respect to the recent stay-at-home orders in California, Connecticut, Delaware, Illinois, Indiana, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, and West Virginia. Please note, the answers provided are brief. If you would like to see the specific language of the order, please use the hyperlinked state to direct you to the broader state-specific entry. A number of municipalities in other states have enacted their own stay-at-home or stay-in-place orders. If you have any questions about particular municipalities, please let us know.

\* Many of the states have issued bulletins that contain the following information:

- **Information Access.** Asks insurers to inform insureds of available benefits, quickly respond to insured inquiries, and consider revisions needed to streamline response and benefits for insureds.
- **Testing.** Requests/requires insurers to waive cost-sharing for (1) COVID-19 testing **and** (2) in-network provider office visits, urgent care center visits, and emergency room visits.
- **Telehealth Delivery of Services.** Reminds insurers to ensure their telehealth programs are robust and will be able to meet increased demand.
- **Network Adequacy and Access to Out-of-Network Services.** Requests insurers to verify their provider networks are adequate to handle a potential increase in the need for health care services **and** requests insurers that do not have a provider in their networks with the appropriate training/experience to meet the health care needs of insureds make exceptions to provide access to an out-of-network provider at the in-network cost-sharing level.
- **Immunizations.** In the event an immunization becomes available, requests that insurers immediately cover the immunization at no-cost sharing.
- **Access to Prescription Drugs.** Asks insurers to make expedited formulary exceptions in certain circumstances **and** requests that insurers allow insureds to fill and refill prescription medications for up to a 90-day supply/until the prescription expires.

Not every state has followed this model and some states deviate in important respects (e.g., by specifically addressing surprise billing, ambulance services, etc.). The below survey details the available state resources, the date on which the resources were issued, and a brief summary offering a general overview of the guidance offered. In particular, it focuses on cost-sharing waivers, telehealth services, treatment of out-of-network providers offering in-network services, etc.

\* We envision this as an evergreen document that we will aim to update **daily**. If you operate in a state and notice that we have not included the most up-to-date guidance, please let us know.
